(The blade can be replaced by removing the body screws.)

Replacement blade for YS-100: Part No. YS100KAEHA

Dimensions: mm

●YS-100

●YS100KAEHA

How to use YS-100:

(1) Rotate the tool circumferentially to cut into the outer layer (Note 1).

(2) Slide the tool longitudinally to cut into the outer layer (Note 1).

(3) Strip off the outer layer along the cut.

(4) Strip off the aluminum film (Note 2).

Note 1: Please be careful not to damage the aluminum laminate film when cutting into the outer layer using the tool.

Note 2: If the inner tube is damaged, cut the tube section off and perform the above procedures from (1).

 **Caution** To ensure the safest possible operation of this product, please be sure to read thoroughly the "Safety Instructions" in our "Best Pneumatics" catalog before use.
